

in effect through July 12 we can make no estimate as to how widespread this concern is. But I want to serve notice today, that I will offer this amendment year after year until this provision which allows landlords to "take the money and run" is fixed.

And another farmer wrote me recently,

By all accounts my farming operation is rated as one of the top five in my county. We (my father and brother) combine ourselves so we rely on no outside help . . . We specialize in production of rice, corn and soybeans. We lease 75% of ground to farm which is the cause of our problem.

The landowner can now, terminate a lease of the tenant, . . . with the sole purpose of collecting the payment and not producing any crops on that land. . . . It allows investors to buy real estate and use the payment to help pay for the land, while not allowing a producer to farm it. . . . It was not the intent of this legislation to give land owners or any one the chance to exploit this bill into another public relations nightmare.

I must however express my opposition to the cap on sugar payments that is included in this bill. While I will not offer a motion to strike this provision, its impact will be devastating to the sugar beet farmers in my District. This bill caps the U.S. raw sugar price at 117.5 percent of the loan rate, or 21.5 cents per pound. This about 1.5 cents below current prices. According to USDA, so much foreign sugar would have to be imported to reduce the raw sugar price to the capped level, that the refined sugar prices beet producers receive for their crop would plummet to about 24 cents per pound from the current 32 cents per pound. This cap will reduce the value of the sugar produced by beet growers by \$650 million.

Traditional farm programs continue to receive a decreasing portion of our spending and in my view we should target our scarce agricultural dollars to small family farmers. I opposed the recent farm bill because I do not believe that it did enough to target assistance to family farmers and to provide them with a safety when times are bad. While the farm bill made progress by enacting a \$40,000 payment limitation, I remain concerned that large corporate farmers can still have access to Federal payments.

In the decade of the 1980's we have slowly eroded the basis of American agriculture—the family farmer—and are moving in the direction of large corporate farms. We must address the increased concentration in agricultural markets that is squeezing family farmers out of business. We must also ensure that commodity prices are maintained at a level high enough to compensate for costs of production and to maintain standards of living in order to attract and retain individuals in farm production. And further, we must also negotiate trade agreements which encourage and enhance the ability of family farmers to compete in world markets.

In agriculture trade, we must also work to recapture lost markets and increase exports. As American agricultural exports grow, foreign agriculture exports are being shipped to the United States in greater magnitude. Since 1981, our agricultural exports have declined from \$43.8 billion to a low of \$26.2 billion in 1986 and are projected to be a record \$60 billion next year. At the same time agricultural imports have increased from \$10.8 billion to approximately \$25 billion in 1995. In many cases these are products our own farmers could be selling.

In closing, I want to again commend the chairman and the ranking member for putting together a good bill. I urge the Members to support this fiscally responsible measure.
